Message to the Congress Transmitting a Protocol to the Canada-United States Atomic Energy Agreement With Documentation

June 24, 1999

To the Congress of the United States:

I am pleased to transmit to the Congress, pursuant to sections 123 b. and 123 d. of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2153(b) and (d)), the text of a proposed Protocol Amending the Agreement for Cooperation Concerning Civil Uses of Atomic Energy Between the Government of the United States of America and the Government of Canada signed at Washington on June 15, 1955, as amended. I am also pleased to transmit my written approval, authorization, and determination concerning the Protocol, and an unclassified Nuclear Proliferation Assessment Statement (NPAS) concerning the Protocol. (In accordance with section 123 of the Act, as amended by Title XII of the Foreign Affairs Reform and Restructuring Act of 1998 (Public Law 105-277), I have submitted to the Congress under separate cover a classified annex to the NPAS, prepared in consultation with the Director of Central Intelligence, summarizing relevant classified information.) The joint memorandum submitted to me by the Secretary of State and the Secretary of Energy and a letter from the Chairman of the Nuclear Regulatory Commission stating the views of the Commission are also enclosed.

The proposed Protocol has been negotiated in accordance with the Atomic Energy Act of

1954, as amended, and other applicable law. In my judgment, it meets all statutory requirements and will advance the nonproliferation and other foreign policy interests of the United States.

The Protocol amends the Agreement for Cooperation Concerning Civil Uses of Atomic Energy Between the Government of the United States of America and the Government of Canada in two respects:

1. It extends the Agreement, which would otherwise expire by its terms on January 1, 2000, for an additional period of 30 years, with the provision for automatic extensions thereafter in increments of 5 years each unless either Party gives timely notice to terminate the Agreement; and

2. It updates certain provisions of the Agreement relating to the physical protection of materials subject to the Agreement.

The Agreement itself was last amended on April 23, 1980, to bring it into conformity with all requirements of the Atomic Energy Act and the Nuclear Non-Proliferation Act of 1978. As amended by the proposed Protocol, it will continue to meet all requirements of U.S. law.

Canada ranks among the closest and most important U.S. partners in civil nuclear cooperation, with ties dating back to the early days of the Atoms for Peace program. Canada is also
